Douglas Machines Corp.

Douglas Machines Corp. offers a full line of automated washing and sanitizing equipment for all containers commonly used in the food processing and distribution industries. Batch and continuous cleaning designs are available for several hundred to several thousand containers per hour. Pictured are some of their most recent product introductions; a Rack Washer for detachable weigh scale parts, a Vat/Bin Washer for bulk ingredient bins, and a Tunnel Washer for Pallets. Other models are available for barrels, pans, trays, moulds, totes, screens, smoke sticks, racks and buckets. Call 800-331-6870, or visit www.dougmac.com to get additional information on a model suited to your specific needs

Dur-A-Flex

When you partner with Dur-A-Flex, you receive more than 35 years extensive field knowledge and the most advanced, tested and trusted epoxies, MMA and urethane floor systems in the industry.

We provide total tech support to meet the needs of everyone driving construction projects—from architects and engineers, contractor and facility owners. Your order is expedited and strictly controlled and documented to ensure accuracy and quality.

There's a product perfect for your flooring project from industrial to decorative, giving you a bright, unique look with high-performance functionality. You'll discover that our versatility and unlimited styles are unmatched and stand the test of time.

Our flooring systems set the benchmark for performance in the food industry with specially formulations that meet or exceed USDA, OSHA, FSIS and HACCP requirements. We offer ideal properties such as: slip resistance, thermal shock resistance, cleanability and easy maintenance, stain & chemical resistance, seamless construction and durability and sanitary surfaces that won't harbor dirt, dust or germs. Our fast curing MMA is renowned for its quick installation and minimal down time.
