Waukesha Cherry-Burrell

Waukesha Cherry-Burrell Products: Universal I Series PD Pumps

Waukesha Cherry-Burrell's traditional "Can-Do Pump." Versatile in application, its reliability has made it the industry standard worldwide for more than 50 years.

- Easy cleaning and disassembly
- Flexible, three-way mounting
- Field interchangeable single and double "O" ring and mechanical seals
- Exclusive, non-galling Waukesha "88" alloy rotors
- 3-A and BISSC approved
- Maximum pressure: 200 psi (13.8 bar)
- Temperature range: -40° F. (-40° C.) to 300° F. (149° C.)
- Available in close-coupled Tru-Fit™ configuration

Waukesha Cherry-Burrell Products: Universal II Series PD Pumps

In addition to the proven operation and durability of the Universal Series, this pump includes advanced sanitation technologies, long life features and installation flexibility.

Features:

- Bi-directional flow
- Large diameter shafts for greater strength & stiffness
- Rotor/shaft connection sealed from the product zone
- Extended-life outer seal
- Mechanical seals standard
- 316 pump body standard; 316L pump body optional
- Heavy-duty bearing frame; stainless steel bearing frame optional
- Exclusive, non-galling Waukesha "88" alloy rotors for tighter running clearances and higher efficiencies
- Additional options: CIP capability, free draining body and cover for side mounted applications, seal flushing, steam-in-place, aseptic version
- Maximum pressure: 200-500 psi (13.8-34.5 bar), depending on model
- Temperature range: -40° F. (-40° C.) to 300° F. (149° C.)*
- Available in close-coupled Tru-Fit™ configuration

Wire Belt Company Of America

Since 1947, Wire Belt Company of America has proudly maintained a reputation for developing advanced conveyor and belting solutions to meet the automated processing needs of the food industry. Wire Belt products keep your conveying operations safe, sanitary, and easy to maintain.

Wire Belt introduces revolutionary new products: C-CureEdge® and EZSplice®, specially designed to enhance productivity and upgrade safety in the production environment. The patented C-shaped end loops of C-CureEdge lessens opportunity

for conveyor-to-conveyor catching and tangling during day-to-day operation and EZSplice belt splicing system gives longer belt life, stronger belt joints and save time and money by reducing downtime for repairs.

In addition, Wire Belt offers Classic Flat-Flex®, Flat-Flex XT®, Flat-Flex EL® Extended Life conveyor belting, Eye-Flex® belting for heavy-duty applications, and the CarrySmart™ conveying systems; for applications where there's a requirement for change in direction, spacing of parts and pieces, orientation changes or other difficult handling issues. We provide a number of conveying solutions such as: spreading or converging, straight, shuttle, hybrid and a full line of Flex-Turn® conveyors.

Flat-Flex products are USDA accepted to meet the hygiene requirements for the design of mechanical belt conveyors used in meat and poultry processing. The cleanability of our belts is unsurpassed in an industry where cleanliness is critical. Our products are designed to eliminate hiding places for bacteria and pathogens, helping the food industry meet HACCP and FDA standards.

For that reason alone, we stand apart from the imitators. That's why it's important when you buy a wire belt... make sure it's a Wirebelt.

Clean, Safe, Sanitary... Wirebelt!
