Methodology

The Food Engineering Top 100 Food and Beverage companies is compiled by an independent researcher based on the most up-to-date financial information possible. For companies that report results in currencies other than dollars, currency conversions are based on a 12-month average as reported on www.x-rates.com.

CRB is the exclusive sponsor of the Top 100 section. CRB had no editorial input and Food Engineering retains full ownership of and takes full responsibility for the content.
